

Simulator Training

Simulation Training Centre

For the fourth year running, the HRC2018 scientific committee have decided to offer simulation training as part of the programme. This will take place in the simulation training centre in the exhibition and will provide delegates with an opportunity to access high quality training, across a range of simulators.

Below is a list of the simulators available during HRC2018:

Abbott

Through practical simulator experience utilising real-world case examples, complex VT mapping and the utility of Ensite Precision can be explained and discussed in a safe environment.

The simulator station will provide hands on a virtual reality simulator allowing mapping of an ischaemic VT case via the Ensite Precision mapping system; including handling of mapping and ablation catheters, bipolar/unipolar voltage mapping, late potential mapping and fractionation mapping.

Medtronic

The Simbionix lead simulator will provide you with a screen and fluoro pedal with a 'body' which is a method of introducing different catheters and guide wires through one end. When you acquire fluoroscopy the screen will show the leads being placed selected via a connected laptop.

The variety of leads included cover IPG, ICD and CRTD implantation scenarios. The choice is yours!

The operator can manipulate the catheters and guide wires and in real time on the screen the leads will behave exactly during implant.

There is the option to use different stylets and guide catheters and there is the ability to virtually deploy active fixation leads.

Biosense Webster

Biosense Webster are providing state of the art simulator sessions to help showcase our CARTO(r) 3

technology. These practical sessions provide a unique hands on experience of our new software CARTO(r) VisiTag Module with Ablation Index, optimised workflows for complex Atrial Tachycardia's or Ventricular Tachycardia's, and an introduction to our newest software; version 6 - ConfiDENSE(tm) Module with Ripple Mapping . You will also have the opportunity to ask our expert CARTO(r) 3 users technical questions about the modules.

Boston Scientific

These simulators provide hands-on practice of lead implant procedures performed under fluoroscopy in the cath lab in a virtual reality simulated environment. The simulator's technology enables realistic visualization of the anatomy and instrument activity. This is combined with a high-end haptic system for visual and tactile feedback, which realistically mimics the look and feel of actual interventions. The system allows real time creation of continuous fluoroscopy, roadmap imaging, simulation of C-arm and patient's table manoeuvring using a control panel with the ability to store and browse images/sequence acquired. The specific focus for CRM will be on brady lead placement/ICD lead placement and LV lead placement with different coronary sinus anatomies to practice on.

*These simulators will have experienced senior consultants helping with the training

How do I book?

The training will be held in the Simulation Training Centre or on the stands themselves in the exhibition at the following times:

Monday 8th October

14:00-16:00

Tuesday 9th October

09:00-11:00

14:00-16:00

All sessions will last 30 minutes and will consist of a tutorial with an experienced trainer.

To book please email s.kempton@heartrhythmcongress.org.uk

To check for late availability on the day, please report to the Simulator Training Centre during the specified session times.

Cancellation Policy

Any cancellations should be made at least 24 hours in advance; any delegate who fails to attend a booked session will have any other booked sessions cancelled.

Acknowledgement

Heart Rhythm Congress would like to thank, Abbott, Medtronic, Biosense Webster, and Boston Scientific for providing the simulators and technical support.

7 Oct 2018, Sunday - Patients Day

NEW for 2018!

We will be running two STARS sessions - one dedicated to PoTS and the other dedicated to Syncope and Reflex Anoxic Seizures (RAS).

We are also holding a dedicated CPVT session.

Please note delegates will be able to move freely between all of the below sessions.

AF Association Patients Day - Hall 8b

Chair: Angela Griffiths, Matthew Fay			Oxford, UK, Bradford UK
10:00	Managing weight can be as effective as an ablation - True or False	Prapa Kanagaratnam	London, UK
10:30	Exercise and AF	Angela Griffiths	Oxford, UK
11:00	Living with AF - a patient's experience	Mark Hyem	
11:30	Comfort Break		
11:45	Driving and DVLA guidelines	Matthew Fay	Bradford UK
12:15	When to seek medical attention or intervention with my AF	Matthew Fay	Bradford UK
12:45	Break		
13:30 - 16:00	Chair: Angela Griffiths		Oxford, UK
13:30	AF Association Charity Overview	Trudie Lobban MBE	Chipping Norton, UK
13:35	Medication Interactions	Joseph de Bono	Birmingham, UK
14:00	What is the difference between AF and Atrial Flutter?	Kim Rajappan	Oxford, UK
14:30	CHA2DS2VASc - what does this mean to me?	Prapa Kanagaratnam	London, UK

15:00	CBT how can it help?	Morwenna Opie-Moran	London, UK
15:30	Q and A		
16:00	Close		

STARS PoTS Patients Day - Hall 7

Chair: Boon Lim, Nicholas Gall			London, UK, London, UK
10:00	Current treatment options for PoTS	Boon Lim	London, UK
10:25	Art and science : a reflection on a life in medicine	Blair Grubb	Toledo, USA
10:50	A Realistic Approach to Exercise Rehabilitation	Nicholas Gall	London, UK
11:15	Comfort Break		
11:30	What might cause PoTS and what might we learn from research that can benefit patients?	Satish Raj	Calgary, CA
11:45	Nutrition and PoTS	Helen Eftekhari	Coventry UK
12:20	STARS and PoTS - our mission on your behalf	Trudie Lobban MBE	Chipping Norton, UK
12:45	Break		
13:45 - 16:15	Chair: Nicholas Gall, Satish Raj		London, UK, Calgary, CA
13:45	Patient experience: finding a way forward	Charlotte Jones	

14:15	Interactive session: building up a self-help toolkit	Morwenna Opie-Moran	London, UK
14:45	My PoTS wish lists	Nicholas Gall	London, UK
15:15	Autoimmune causes of PoTS	Blair Grubb	Toledo, USA

STARS Syncope & RAS Patients Day - Executive Room 2

Chair: Richard Sutton, Robert Sheldon			Monte Carlo, MC, Calgary, CA
10:05	STARS: let's celebrate its accomplishments during the last 25 years	Richard Sutton, Trudie Lobban MBE	Monte Carlo, MC, Chipping Norton, UK
10:15	Quality of life in patients with Syncope	Jelle DeJong	Amsterdam, Netherlands
10:30	Syncope: what is new and important to you since 2013?	Steve Parry	Newcastle Upon Tyne, UK
10:55	What are all these new wearable or portable devices, and why does it matter?	Rupi Sandhu	Alberta, CA
11:20	Pregnancy & Syncope	Padma Kaul	Alberta, CA
11:30	Comfort Break		
11:45	Syncope and heart block: pacemaker or just watch (carefully)?	Richard Sutton	Monte Carlo, MC
12:15	Putting the person first: a patient is not just blood pressure and heart rate	Blair Grubb	Toledo, USA
12:45	Patient Talk		

13:00 Break

Chair: Padma Kaul, Rupi Sandhu

Alberta, CA, Alberta, CA

13:45 Syncope and the young Karen McLeod Glasgow, UK

14:15 Vasovagal syncope - overlapping disorders Rose-Anne Kenny Eire, IE

14:35 Interactive session: what is the best way to interact with doctors? Boon Lim, Matthew Fay, Padma Kaul, Trudie Lobban MBE London, UK, Bradford UK, Alberta, CA, Chipping Norton, UK

15:10 Interactive session: plenary summing up Boon Lim London, UK

Arrhythmia Alliance Patients Day - Hall 8a

Chair: Kim Rajappan			Oxford, UK
10:00	SVT versus PSVT	Kim Rajappan	Oxford, UK
10:30	A patients experience of living with SVT	Mark Asplen	
11:00	Ectopic beats and my anxiety	Boon Lim	London, UK
11:30	Comfort Break		
11:45	Arrhythmia Alliance Charity Overview	Trudie Lobban MBE	Chipping Norton, UK
11:50	How can I help myself with heart failure?	Colin Cunningham	Manchester, UK
12:15	What can I do about Cardiomyopathy?	Stephanie Cruickshank	Surrey, UK
12:45	Break		
Chair: Adam Fitzpatrick			Manchester, UK
13:30	CBT How can it help?	Morwenna Opie-Moran	London, UK
14:00	Living with Heart Failure	Stephanie Cruickshank	Surrey, UK

14:30	Deactivation and Palliative care with ICD	James Fouhy	Clonmel, Ireland
15:00	Palpitations: When to seek medical attention or intervention	Matthew Fay	Bradford UK
15:30	Q and A		
16:00	Close		

Arrhythmia Alliance CPVT Patients Day - Executive Room 1

10:00 - 12:15	Chair: Adam Fitzpatrick	Manchester, UK	
10:00	What is CPVT?	Jan Till	London, UK
10:30	Arrhythmia Alliance Charity Overview	Trudie Lobban MBE	Chipping Norton, UK
10:35	A patient's experience of living with CPVT	Shannon Donovan	
11:00	What treatment is available to me with CPVT?	Karen McLeod	Glasgow, UK
11:30	Break		
11:45	Sport and lifestyle advice in CPVT	Belinda Gray	London, UK
12:15	Latest update on device technology for CPVT	James Fouhy	Clonmel, Ireland
12:45	Break		
13:30 - 15:00	Chair: Kim Rajappan	Oxford, UK	

13:30	What is Left Cardiac Sympathetic Denervation (LCSD) - how can it help?	Jan Till	London, UK
14:00	What is genetic testing and why will it help?	Leonie Wong	London, UK
14:30	Q&A		

7 Oct 2018, Sunday - Scientific Sessions

EP Traces Course - Hall 10a

Chair: Fakhar Khan, Oliver Segal, Simon Modi		, London, UK, Liverpool UK
